Maurice Moore

Resident of PA

MMX1998@pm.me

Related Experience:

Jan 2022 – Current

Allied Universal – Security Professional

- Preformed interior and exterior patrols of the B. Braun medical manufacturing facility.
- Preformed desk duties such as: Badge creation; Security Badge Audits; Virtual tours via camera; Investigate security related incidents; Contractor management; Executive management.
- Respond to medical emergencies.
- Maintain accurate, to the point, documentation practices for incident reporting.
    - Provide report directly to the site supervisor.

Aug 2021 – Dec 2021

PenTeleData – Technical Support

- Troubleshoot IoT devices remote.
- System Administration.
- Adjust a few security configurations within the customers device.
- Troubleshoot email issues.
    - Outlook 2010-2016
    - Thunderbird (most up to date versions)
    - Apple default mail application.
    - Windows default mail application.
- Creating and helping specific customer requests.

- Assist customers with software configurations.

Little bit about myself:

I am 23 years old planning on staying within the field of cyber security. I am trying to become the David Goggins of CyberSec; If you never heard of him I highly encourage you to google him. He has shown me that the barrier for excellence maybe high but that is only 40 percent of your actual limits. I enjoy the constant mental struggle between attackers and defenders. I understand that this field has two basic principles: 1) the defenders need to win ever time while the attackers must win once. 2) Eventually your security will be breached. The questions I set out to answer is what can I do to extend that inevitability and how can I limit what data got exposed.

A life time investment mixed in with a high level of disciple and determination is how you become great. – Chris Williams

Certifications:
- Comptia Security+CE (Passed)
- Comptia Network+ (Passed)
- Comptia Cysa+ (Currently)
- Comptia Cloud+ (Planned)

Personal Experience:
- Set up my DC and AD using Proxmox (DC) and Zentyal (AD).
- Using Microsoft server 2019 as another DC and AD with the purpose of:
  - Setting up group policy.
  - Managing share/folder access controls.
  - Managing application access controls.
  - Developing applicable skills with power shell.

- Have familiarity with common regulatory requirements such as OCC HS, FFIEC, GLBA, NY DFS etc. as well as industry frameworks such as NIST CSF, COBIT, COSO and PCI.

- Using tools and technology to provide data analytics and business intelligence on threats, risks and vulnerabilities.

- Designing and developing cybersecurity and technology risk programs using industry frameworks and methodologies.

- Hands on experience with:

  - Log Management and SIEM - Splunk

  - Network Analysis Tools - Wireshark

  - System Analysis and Forensic Tools -

  - Penetration Testing Tools – Kali, Matasploit

  - Firewalls - Pfsense

  - DLP -

  - Windows Management systems – Windows AD (including group policy)

  - End Point protection – Little snitch, McAfee

  - Vulnerability Assessments -Nessus

  - Proxy - Ubuntu

  - Email Gateways - Proxmox

  - Enterprise Microsoft Solutions – Sharepoint, Exchange

  - OS – Linux (Desktop and Server) , MacOS, Windows (Desktop and Server)

- Some experience with Snort.

- Studied and notated the following presentations:

  - Find_Evil - Threat Hunting | SANS@MIC Talk

  - Entirety of the SANS Blue team summit 2021 (waiting till Oct for the 2022 summit)

- Entirety of the SANS CTI Summit 2020, 2021, and 2022 (with exception to the Spanish presentations)
- SOC Experts (Anand Guru) Malware Analysis playlist
- John Hubbard's SOC analyst training playlist
- ManageEngine ADSolutions on youtube
  - Fundamentals of SIEM: Real-time analysis of all alerts from across the network
  - Log management best practices for SIEM
  - IT security under attack series
  - EventLog Analyzer series
  - Ransomeware Response series
